The background of the entire page is a high-resolution image of several hands in business suits stacked on top of each other, symbolizing teamwork and corporate strength. The hands are positioned in a circular arrangement, with fingers slightly curled, creating a sense of unity. The suits are dark, likely navy blue or black, and the skin tones of the hands are light. The overall aesthetic is professional and modern.

ABOUT US

The Motto Group is an Indian manufacturer and an exporter of ceramic and vitrified tiles all around the globe. In 2009, its manufacturing unit became functional in Morbi, Gujarat, with a production capacity of 12,000 Sq. Mtrs. per day. With the latest technologies and modern machinery in its infrastructure, the group has been able to increase its production capacity significantly since its establishment. The motto is not only stunning the world with its enamoring product range but is also letting its customers experience new trends right in their space with exceptional service. Motto aspires to lead the industry and set a benchmark with its trendy and reliable products, which have been recognized by regulatory bodies like ISO and CE. Motto Group with its outstanding leaders will continue to raise the bar, so as to transform the lifestyle of people from all over the world with its best of the best products.

MARBLE + THE BOOK OF NEWNESS

Surfaces that inherit the expressive power of concrete, a material that wrote important pages in the history of the ceramic world and plays a fundamental role in modern design thanks to the capability to radiate strong tactile energy to every context surrounding it. With a fresh, holistic approach to every masterpiece, and sensitively balancing style and innovation. This pleasing masterpiece inspires the spaces & elevates the souls

www.mottogroup.in

A hand with a ring is shown touching a light-colored, veined marble surface. To the left, a portion of blue denim jeans is visible. The background is a soft-focus continuation of the marble texture.

WORKING WITH THE VARIOUS VERSIONS OF MARBLE ✚

CUTTING WITH DIAMOND DISCS

Our products can be cut using diamond discs fitted onto the hand-held electrical grinding machine. The speed of Disc rotation must be high (>10000 RPM) and should have a low feed rate (< 1 m/min). It may be required to cool the disc with water. Recommended discs are the thin types generally used for cutting porcelain stoneware. The surface should be kept on a FLAT base while cutting without any gap underneath

DRILLING

You can use cutting discs fitted to battery-operated screwdrivers or angle grinders, electrical drills as an alternative.

INTERNAL CUT / L-SHAPED CUT

To get internal and L-shaped corners & to reduce the risk of breakage, round off the vertex of the internal corner using bits with a radius of at least 5mm. Then cut with diamond discs, be cautious to stop moving the cutting tool forward. To drill and cut using diamond discs, follow the instructions provided above.

When using these tools:

- Cool the point being drilled with water
- Don't put too much pressure and bear in mind the resistance of the type of laminated stoneware you are working on
- If you are using tungsten bits, start drilling at a low speed
- If you are using drills or screwdrivers, do not select hammering mode

EDGE-FINISHING

INSTRUCTIONS FOR MANUAL INSTALLATION

SINGLE LAYER METHOD

DOUBLE-LAYER METHOD

COMPRESSING THE TILE

IMPORTANT

All cutout corners must have a minimum diameter of 1/4".Never leave 90° angles.We recommend radiuses of more than 1/4" when the kitchen the design allows as it makes the countertop firmer.

CLEANING & MAINTENCE

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface.

For most cases only a damp cloth is sufficient for cleaning.

Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine.

For highly aggressive cleaning caused by some common food and substances follow the table below.

TYPE OF STAIN	CHEMICAL PRODUCT	EXAMPLE
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Backing Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, Nail Paint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Reagent, Hydro Chloric Acid
Cement	Acid	Hydro Chloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydro Chloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Note: It is recommended that any kind of stain needs to get clean immediately / as soon as possible.
