CORPORATE PROFILE

ABOUT US

Motto is one of the most dynamic & productive brands of the modern ceramic world that is brought to life by a Visionary person Mr. Mahendea Patel. Over the years the company has developed manifold. Since 2004 - the inception year, to today we have expanded our reach to national & international arenas with a capillary presence in more than 70+ countries with than 2500 satisfied customers.

Finest skills clubbed with state-of-the-art technology have helped us to carve a niche, which is stamped by authorities as we are ISO 9001:2018 Certified. Overall the company has marked its position as the leading Manufacturer, Exporter and Supplier of the exquisite Ceramic Porcelain Tiles for Wall & Floor.

VISION

We believe in delivering the trust in the form of our tiles
We aim to create successful collection with a strong personality base on careful research, designing, appearance and performance for every season

MISSION

Give value for money products to our clientele
Keep on regulating and updating our technological domain
Give a concrete career boost to all the facets

OUR CORE VALUES

Ethics hold a strong presence when it comes to Motto's practices. The entire foundation of Motto is laid on a set of values which we abide by all the time.

Authenticity: We believe in serving authentic products. This idea is present in all our working aspects, be it raw materials, technology or services.

Teamwork: Motto tiles believes that nothing great can be achieved single-handedly; it's a team that can bring success to any endeavor.

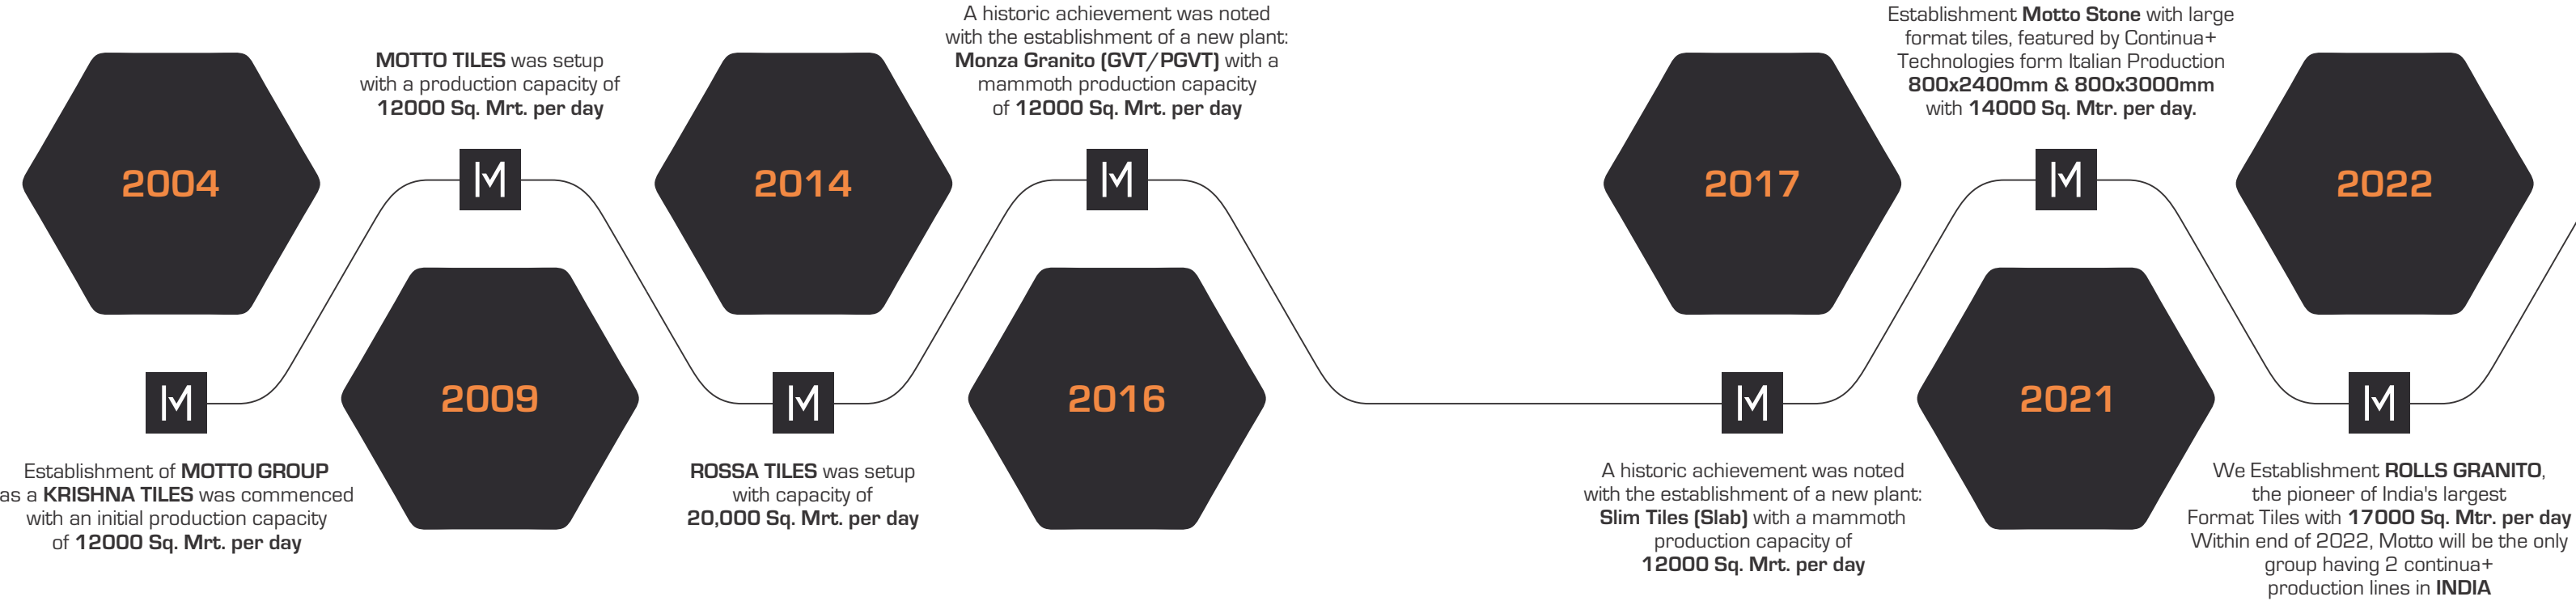

Environment Savvy: Considering the current situation of the environment, we make sure that we do not harm nature in any form.

Excellence: We aspire to be the best in the ceramic industry by serving finest quality products, through in-depth research, adopting and implementing global standards and setting a flawless procedure.

MILESTONES

Setting benchmark like a pro

QUALITY AND PRODUCTION

Then the tiles are tested for their flatness too. Tiles are tested for flatness after which optical senses take over. Optical sensors measure points on the surface to create a matrix. Parameters and the tile is classified. Lastly, Dico Liner optical sensors analyze the surfaces to say goodbye to any cushion of trapezium effects.

Our quality concern for our products is further enhanced by our safety concern for our workforce. Our workers perform their duty under the supervision of our safety for staff team that assures focused working environment.

Overall, following all the necessary standards and quality control norms help us to produce premium quality tiles.

INFRASTRUCTURE

We are backed by a strong dealer network spread across the vast geography of India spanning the country from North to South and East to West, covering all major cities and state capitals en route.

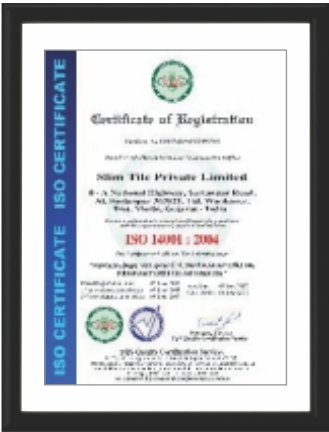

TECHNOLOGY

We use Digital Printing Technology- Creadigit as it provides speed up to 70 m/min and unique precision even in complex graphics. Floors or walls, application of glaze on full or dark field, in any setting high resolution is guaranteed. Another major advantage that they provide is the absence of lines and streaking. Besides, prints in shades of grey and prints with material effects are also done.

To cater the large formats we use ROTOCOLOR that assures fine quality, efficiency and perfection. It allows managing speeds, sequences, interfaces with the digital equipment and it uses pre-set parameters to then save them in a log. The Sequencer System is used to manage up to 3 units with 4 or more heads each. Improved printing definition and complete product repeatability are the major perks they offer.
